RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

June 6, 2003

Sir:

In response to the Office communication dated May 7, 2003, the following remarks are respectfully submitted in connection with the above-identified application.

Application No. 09/697,719

REMARKS

Claims 1-69 are pending in the present application. No new matter is inserted into the application.

Restriction Requirement

In response to the Restriction and Election Requirement, Applicants elect Group VI, claims 1-7, 20-25, 28-31, 37, 43, 45, 47, 49, and 51, drawn to a method of producing a herbicide resistant plant comprising transforming a plant with a polynucleotide encoding a protoporphyrinogen IX oxidase protein derived from soybean and lacking the ability to oxidize protoporphyrinogen IX, a plant produced therefrom and methods of using said plant, with traverse.

Applicants respectfully submit that the Examiner has not established that there is an undue burden in searching for all claims as required by MPEP § 803. The "undue burden" requirement created by the U.S. Patent and Trademark Office is recited in MPEP § 803:

If the search and examination of an entire application can be made without serious burden, the examiner must examine it on its merits, even though it includes claims to independent and distinct inventions.

The Examiner states, "the search required for one of the groups is not required for another..." On the other hand, the Examiner

Application No. 09/697,719

states that all of the claims are classified within the same class, (i.e., class 800). The groups only differ by subclassification, but even then, Groups I, II, VIII, IX, XI, XII, and XIII share the same subclassification of subclass 300, Groups III, IV, and V share the same subclass of 288, and Groups VI, VII, and X share the same subclass of 278. Applicants do not believe that an undue burden would be placed on the Examiner to rejoin the claims, especially when the claims share the same classification.

For these reasons, Applicants believe that an undue burden for searching does not exist, and respectfully request that the Examiner rejoin all claims of the present invention and examine them together in the present application. In particular, Applicants respectfully request that the Examiner rejoin the claims of Groups VI and VII, based upon their identical subclassifications. This rejoinder would only require the addition of claims 26 and 27 to the claims of Group VI. Applicants do not believe that an undue burden would be placed on the Examiner to add two claims to the elected claim set.

An early and favorable action on the merits of the present application is earnestly solicited.

If the Examiner has any questions concerning this application, the Examiner is requested to contact Kristi L. Rupert, Ph.D. (Reg. No. 45,702) at (703) 205-8000.

Application No. 09/697,719

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17; particularly, extension of time fees.

Respectfully submitted,
